Subject: An important message from Hunterdon County GOP Officials

Sent: Sat 6/9/2012 12:57 PM

Dear Hunterdon County Republican Committee Member,

We are writing to ask you to join us in supporting Chairman Henry Kuhl for re-election as Hunterdon County Republican Chairman.

Henry is a man of character and integrity and has provided steady leadership over the years. Hunterdon County is one of THE BEST performing Republican counties in the State. In 2009, Hunterdon County had the highest voter turnout in the State and Hunterdon gave Governor Christie his highest percentage of votes in the State.

As we prepare for the important election of 2012, we believe Henry is the best choice to lead the Party. With Governor Christie at the helm of the NJGOP, we believe NJ can be put in play on the national stage for Mitt Romney to defeat Barack Obama and for our Republican Senate Candidate Joe Kyrillos to defeat Bob Menendez.

This November, the Republican ideals of smaller government and lower taxes will contrast sharply with the Democrats' belief that government is the solution to our problems. Governor Christie's pension and health benefits reform has been a model for the Nation. His bold leadership is protecting the taxpayer from out of control government spending by reigning in unsustainable taxpayer funded union pensions and benefits.

In Hunterdon County, we have led the State in reducing the size of county government by providing services in a smarter and more efficient manner, while keeping taxes down.

Hunterdon County will be important to a statewide victory this November and even more important to Governor Christie's re-election next year. We look forward to working with Henry to transition the Party for the future and keeping the Hunterdon County Republican Committee one of the best in the State.

As a member of the county committee, you have the power to decide. We believe Henry Kuhl is the best choice to lead the Hunterdon County Republican Party. We urge you to cast your vote for Henry at the re-organization meeting this Tuesday, June 12, 2012.

Sincerely,
