

**Dear fellow Republicans :**

**The time has come to level the playing field with respect to dirty campaigning in Clinton Township. Mayor Cimei and former Councilman Steve Krommenhoek are the problem — not the solution for easing tensions between two political factions on the verge of killing one another. It all comes down to power and control with these two guys. An example would be last years election of Clinton Township's 24 member delegation to the County Republican Committee.**

**Dave Mills and his running mate — Joan Shaming — were running in "(District #5)" for two seats on county committee in a sincere effort to serve their community. They ran with the best of intentions. As it turned out — their communities gratitude came back to them in the form of Mayor Cimei and his sidekick Krommenhoek mobilizing shadow proxies on the [nj.com](http://nj.com) forums to suggest a clandestine relationship was taking place between Mr Mills and his running mate behind the backs of their respective spouses.**

**It's amazing the level to which some will stoop to beat others down, break their spirit and rid them from the political scene only to advance their own selfish agendas at the expense of others. Mills and Shaming should be placed on a pedestal for not responding in kind, referring to Cimei and Krommenhoek's wives as the stinky pig whores they are feeding at the trough awaiting marching orders from the masterful Nick Corcodilos. Sasquatch sisters would also be quite appropriate.**

**Dave Mills and Joan Shaming are the salt of the earth who would give anyone the shirts off their backs. They did not deserve the hand they were dealt ! The fact that two undeserving victims were so savagely attacked by Cimei and Krommenhoek's blood stained hands underscores a need for Republican leaders in Clinton Township to rethink the way in which they deal with these two individuals.**

**Now, how does it feel to have your families personally attacked in much the same way you two clowns attack others ? I would suspect, not very good. It actually hurts, doesn't it ? Now go ask Henry Kuhl and the freeholders for an apology with one hand out in front of them and the other to your backside. Wait and see which hand fills up first. Hold your nose, wait a few seconds, and tell me later !**
