Hi Vita,

Yes, I can be available Wednesday. They should loop in the Mayor of Lebanon Boro as well at some point.

Many will be disappointed if it is closed as people frequently ask when it will reopen.

Hi Brian,

Are you available for a conference call on Wednesday, 4/13 with Marc Brooks to discuss this matter? I spoke with him and it sounds like they want the road permanently closed. Didn't know if this was a something that has been discussed in the past, but thought it best to start with a phone call and move forward with a meeting with others, such as police and fire should it move forward.

He is available anytime after 9:00 a.m.

Vita,

Sure. I am open on Wednesday all day at present.

Brian,
Would you want to join in on this call?

Subject: Follow up to voice mail

Good morning Ms. Mekovetz:

I just left you a voice mail and thought I would follow up with an email to make it easier for you. My name is Marc Brooks and I am the Executive Director at the New Jersey Water Supply Authority. There were several instances where I had communications with your predecessor, Mr. Landon, and wanted to introduce myself. The Authority maintains Spruce Run and Round Valley Reservoirs. We are obviously in the middle of a major project at Round Valley. I wanted to provide you a project update and discuss a few issues with you including the likelihood of night work and a matter regarding the road over the RV Dike (County Road 629) that is currently closed. I understand from your voice mail that you work Tues-Thurs. I am currently free on those days next week except for early Tuesday. I would appreciate if you could give me a call at some point next week.

Thank you in advance,
Marc B. Brooks

Executive Director
